Cansult Maunsell's strong performance results in Ain Khalid win

ABU DHABI--3 Feb. 2008--Cansult Maunsell's Ain Khalid Commercial Avenue project, a large-scale, mixed use urban development in Doha, Qatar, now has the potential value of US\$39 million as the result of a recent award of post-contract services worth US\$19 million.

The win is a result of Cansult Maunsell's performance and the strong working relationship developed with the client, Barwa Real Estate Company.

Begun in early 2007, the contract involved quality surveying and building and infrastructure design for the 11-kilometer-long development, which features mixed use commercial property, including showrooms, office buildings, apartments, retail outlets, exhibition halls, restaurants and other related facilities.

"We welcome the award of additional services by Barwa as it displays the client's satisfaction with our on-going services," said Cansult Maunsell's Mohammed Dawood, vice president and resident manager, Qatar. "We are also proud to continue contributing to this project, which will significantly enhance Doha's urban area."

The Ain Khalid Commercial Avenue project is scheduled for completion during February 2011.

Forward-Looking Statements: All statements in this press release other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including any projections of earnings or other financial items; any statements of the plans, strategies and objectives. Although we believe that the expectations reflected in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Important factors that could cause our actual results, performance and achievements, or industry results to differ materially from estimates or projections contained in forward-looking statements include: uncertainties related to funding, audits, modifications and termination of long-term government contracts; losses under fixed-price contracts; limited control over operations run through our joint venture entities; misconduct by our employees or consultants or our failure to comply with laws or regulations; failure to successfully execute our merger and acquisition strategy; the need to retain and recruit key technical and management personnel; and unexpected adjustments and cancellations related to our backlog. Additional factors that could cause actual results to differ materially from our forward-looking statements are set forth in our reports filed with the Securities and Exchange Commission. We do not intend, and undertake no obligation, to update any forward-looking statement.
